Ä S T H E T I K

*THE PRIVATE TREATMENT COMPENDIUM*

## Skin Status Analysis

*Diagnostic Mapping of the Cutaneous Landscape*

Prior to formulating any multi-tiered treatment path, a detailed multi-point diagnostic skin matrix analysis is performed. We cross-examine nine critical indicators to program your routine:

Dry / Parched	Oily / Sebum Active
Reactive / Sensitive	Textured / Irregular
Congested / Occluded	Balanced / Even
Dull / Devitalized	Irritated / Inflamed
Radiant / Glowing	

## The Collagen Loss Timeline

*Structural Framework Changes Across Aging Cycles*

### IN YOUR 20S — PHASE I

Natural cellular turnover rate functions at peak speed. However, critical structural integrity subtly steps down by around 1% per calendar year.

### IN YOUR 30S — PHASE II

Early clear indicators of expression deepen. Fine wrinkles surface as the dermal layer slowly drops its moisture retention power.

### IN YOUR 40S — PHASE III

Deepening of expressions and dynamic structural laxity accelerate as the underlying framework undergoes structural changes.

## The Injectable Protocol

*Neuromodulators, Structural Lips & Cellular Biorejuvenation*

- **ADVANCED BOTOX THERAPY**

Targeted micro-dosing techniques to relax overactive expression muscle fibers. Seamlessly softens horizontal brow rows, frown structures, and deep crow's feet lines beautifully.

- **PRECISION LIP FILLER ARCHITECTURE**

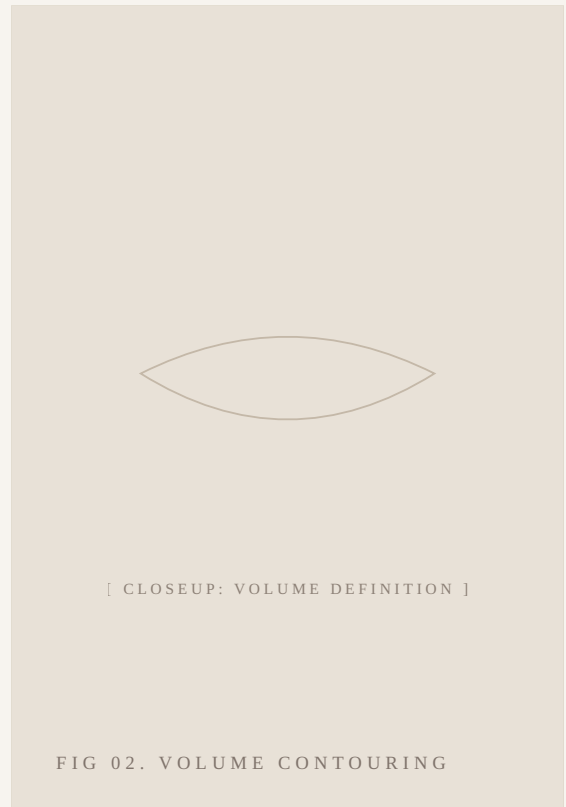

Complete structural enhancement balancing the upper and lower borders. Delivers deep cellular hydration while erasing fine perioral lines and enhancing symmetry.

- **SALMON DNA CELLULAR REMEDY (PDRN)**

A clinical medical milestone using deeply regenerative polynucleotides. Restores damaged tissue, jumpstarts lazy cellular synthesis, and reverses structural thinness.

- **PREMIUM SKIN BOOSTERS**

Micro-aliquots of deep stabilized cross-linked hyaluronic matrices. Infuses deep dynamic water reserves to elevate dermal bounce and reveal a glossy finish.

## Induction & Resurfacing Suite

*Fractional Channels, Growth Factor Interventions & Peels*

- **MEDICAL DERMAPEN 4 TREATMENT**

Highly precise automated macro-needling device creating sterile vertical pathways to diminish skin pore sizes, scars, and uneven surface texture smoothly.

- **CONCENTRATED GROWTH FACTORS (CGF)**

Biomimetic active messenger proteins that easily penetrate deeply to speed up healing, support dermal remodeling, and maximize structural tightness.

- **PEPTIDES & CELLULAR COENZYMES**

Topical dynamic chains that block line-forming signals, rebuilding internal moisture channels and increasing basic cellular metabolism.

- **TARGETED COLD PEELING**

Advanced professional system that clears hyperpigmentation, smooths uneven complexions, and treats stubborn melasma without harsh surface redness or burning.

## RF Microneedling & Hair Restoration

*Radiofrequency Synergies & Advanced Follicular Cocktails*

- RF MICRONEEDLING + EXOSOMES

Combines fractional heat with isolated exogenous signaling vesicles. This thermal matrix targets loose jaw lines, tightens facial structures, and heals the tissue rapidly.

- CLINICAL FACIAL EVOLUTION MATRIX

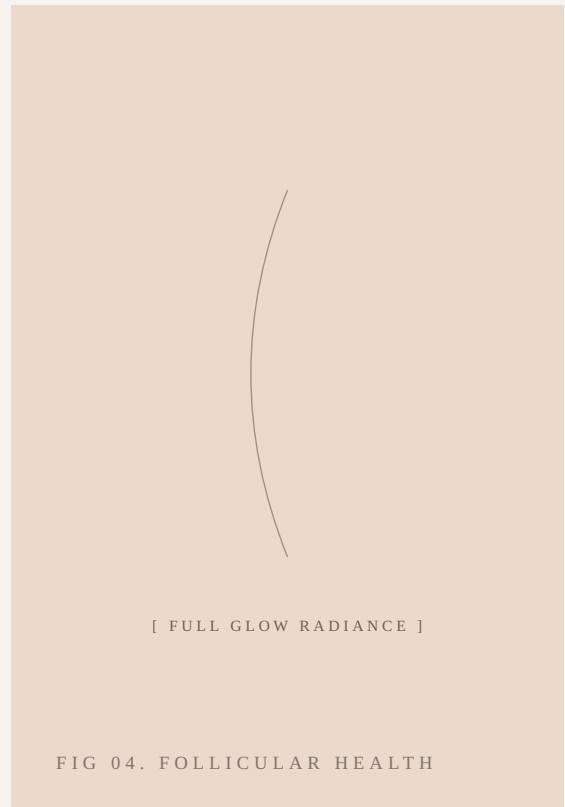

The results unfold in beautiful milestones. Immediate radiant surface glow on Day 1; deep cellular balance at 48-72 hours; full tissue renewal by week 1.

- ADVANCED TRICHOLOGY HAIR CARE

Focused capillary cocktails featuring specialized peptides and direct coenzymes. Safely targets thinning areas, blocks shedding pathways, and revitalizes follicles.

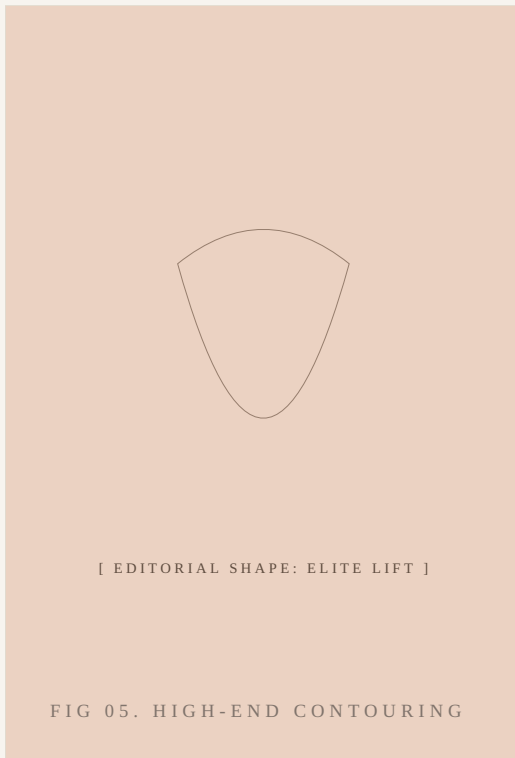

- SCULPTRA & RADIESSE BIOSTIMULATORS

Premium structural lifting agents designed to naturally rebuild deep tissue fullness by slowly prompting your own collagen production over time.

## The Elite Aesthetic Suite

*Next-Generation Non-Surgical Remodeling & Bio-Injections*

- PROFHILO ULTRA-PURE BIOREMODELING

An elite multi-point injection of ultra-pure non-crosslinked hyaluronic acid. Acts as an internal youth molecule, triggering immediate elastin and multi-type collagen signaling for a lifting effect.

- MICRO-INFUSION BOTOX FACIAL (AQUAGOLD FINE TOUCH)

A bespoke luxury cocktail of micro-Botox, custom boosters, and antioxidants delivered smoothly into the surface using sterile micro-channels to erase pores instantly.

- MORPHEUS8 3D SUBDERMAL REMODELING

Deep fractional technology that reshapes underlying adipose tissue. Perfect for defining jawlines, lifting the neck area, and correcting sagging profiles.

- GOURI FULLY LIQUID PCL BIOSTIMULATOR

The absolute pinnacle of luxury injectables—a completely dissolved Polycaprolactone fluid that diffuses across the entire face to trigger lasting autologous neo-collagenesis.
